Getting Started

Charging the Reader

You need to charge the Reader prior to using it for the first time or when battery power is low.

Note: *It's recommended to charge the battery for 4 hours before the first time use. Normally it takes approximately 3~4 hours to fully charge the device.*

Recharge the device as soon as possible when the battery is in low-power level shown as .  icon appears once the battery is fully charged.

You can charge the Reader by:

- Inserting Mini USB connector to the USB port on the device and connecting power adapter to wall socket for charging.
- Connecting the host PC USB port and the device with the included USB cable to start charging.

Note: *When charging through PC, you cannot operate the Reader. To operate the reader during charging, click the Safely Remove Hardware icon on your desktop with the Reader connected to PC. Click any button on the Reader to go from "USB Connection" screen.*

Switch the Reader to stand-by mode to speed up the charging process.

Getting Started

Power Reader On and Off

- Press and hold the [Power] button for 5-6 seconds to turn on Reader - it will automatically enter the main menu on **Home** screen after the start-up screen.
- It may take a few moments for reader to turn on and load the content.
- If Reader does not turn on, charging is required.
- To turn off Reader, press and hold [Power] button for 3-4 seconds.
